

TOLL FREE (888) 278-SKIN (7546)

www.correctiveskin.com

BPO 2.5%, 5%, 10%, 20%

Description:

White medicated lotion.

Skin Types

Problematic skin types

Benefits:

An aid to help control most acne vulgaris. Benzoyl Peroxide Gels are absorbed onto the skin, releasing active oxygen and killing propionibacterium acne. Will also help to fight bacteria.

Please communicate with your Esthetician when your bottle of BPO runs out as the skin builds up a tolerance to medication and you may need an increase in percentage.

Directions:

Cleanse skin thoroughly. If first starting, apply to entire face for 30 minutes for three consecutive days. After 3rd night increase time by 30-60 min.

Your Esthetician will give you the detailed instructions on how to use for individual skin types. Eventually this acne medication should be worn all night on top of glycolic solution.

Active Ingredients:

Benzoyl Peroxide: Kills bacteria

Ingredients:

Purified water, Butylene Glycol, Carbomer, Caprylyl Glycol, Potassium Sorbate, Chloroxyleneol, Sodium Hydroxide, Organic Ethanol, Thymol, Tea Tree Oil, Rosemary, Castor Seed Oil.
